Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1-7 are allowed primarily because the base claim now requires metathesis polymerizing a cycloolefin monomer in the presence of *0.1 to 10 parts by weight*, relative to 100 parts by weight of the cycloolefin monomer, of a compound having two or more vinyl groups in a molecule, and a radical generating agent.

The prior art rejections presented in the previous Office action have been reconsidered and are withdrawn mainly in view of applicants' arguments to the effect that none of the relied-upon references teaches or fairly suggests a crosslinkable resin composition obtained by ring-opening metathesis polymerizing a cycloolefin monomer in the presence of 0.1 to 10 parts by weight of a compound having two or more vinyl groups, and a radical generating agent. (Reply, pp. 5-8.)

The provisional nonstatutory obviousness-type double patenting rejection of claims 1-7 over claims 9-19 of copending application no. 10/567,967 in view of Caster *et al* (Action, pp. 7-8) is withdrawn pursuant to MPEP 804I.B.1, since this is the only rejection remaining in the earlier filed of the two pending applications, while the later-filed application ('967) is rejectable on other grounds.

Accordingly, claims 1-7 are deemed to define allowable subject matter and passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
